A review of last week's market resolves itself into a report of dullness in nearly all branches of trade except the retail trade.

Cotton has kept on its downward track, and figures seem to give way from sheer habit. Liverpool continues depressed, and closes flat with 6 3-16d for uplands and 6 9-16d for Orleans, with 1-18d lower for arrivals, and New York reports a week and irregular market for futures, while Galveston shows a good demand at a decline, quoting 9 3 85 for midding, 9c for low midding and 8 1-2c for ordinary. Our market followed the controlling markets, and with small arrivals closes dull at 7 to 7 1-4c for good ordinary.

7-1-2 to 7 5-8c for low midding.
